

APPOINTMENTS REPORT 2022

**Cuyahoga County
Personnel Review Commission**

Background

Cuyahoga County Charter Article IX, Section 9.02 sets forth various responsibilities for the Personnel Review Commission (PRC), one of which is reviewing and auditing compliance with federal, state, and local laws regarding personnel matters within the County Executive's organization and departments. A fundamental requirement of these laws is that appointments in the civil service of the County shall be made according to merit and fitness, to be ascertained as far as practicable by competitive examinations. The PRC prepared this report to assess compliance with the civil service laws of the County, the Ohio Revised Code, and the State of Ohio Constitution.

Objective and Methodology

This report summarizes the personnel actions for classified civil service positions within the County Executive's organization and departments during 2022 and assesses the County's compliance with various civil service laws that apply to the County. From its screening and civil service testing procedures, the PRC establishes lists of eligible candidates deemed qualified for hire and provides them to the County's appointing authorities from which to make appointments. In turn, the County's Department of Human Resources (HR), in conjunction with an appointing authority, periodically recommends hiring decisions from these certified eligibility lists. HR creates personnel agendas that include those recommendations and sends them to the County Executive for final approval.

This report documents the comparison of the PRC's eligibility lists and the Executive's personnel agendas to verify that persons appointed to classified civil service positions were on eligibility lists the PRC established and certified for appointment. The attached spreadsheet (Addendum A) consists of the following information:

- Employee Name
- Type of Personnel Action
- Original/"Current" Position (if any)
- New Position
- Bargaining or Non-Bargaining status
- PRC Eligibility List Establishment Date and rank of candidate
- Personnel Agenda Date
- Classified Status

The PRC worked collaboratively with HR to address questions and concerns that arose during the preparation of this report, and the concerns the PRC initially identified have been resolved, explained, or confirmed. The PRC acknowledges the assistance of Julie McNulty, the County's Talent Acquisition & Employment Manager, who was helpful in researching and resolving issues the PRC raised during its compliance audit.

This report, as well as the raw data that accompanies the report, will be posted on the PRC's website at <http://prc.cuyahogacounty.us/en-US/Compliance.aspx>.

2022 COMPLIANCE REPORT

This current report reflects a total of 920 reported personnel actions for permanent classified County positions in 2022. These include:

- 552 original appointments,
- 222 promotions
- 120 rehires,
- 7 reassignments,
- 3 lateral transfers,
- 1 transfer, and
- 15 demotions.

Temporary work levels (TWLs) will be addressed in a separate PRC compliance report.

Currently, the PRC has confirmed that 99.7% of the permanent classified personnel actions made by the County complied with civil service requirements (see Addendum A). Based on the information provided to the PRC at this time, the following personnel actions were not in compliance with the Ohio Constitution, Article XV, Section 10, Ohio civil service laws, Cuyahoga County's civil service requirements, and the PRC's Administrative Rules.

Insufficient Documentation of Two Conditional Job Offers

There were two candidates who were hired from expired eligibility lists, and the County did not produce sufficient documentation to establish that the employment offers were made while the eligibility list was active, in violation of civil service laws. These violations demonstrate a lack of consistent procedure. (See Addendum A, Appointments Report Item ## 231 and 291.)

PRC Recommendation: In both cases, the conditional job offer letters were dated after the certified eligibility lists expired, and although the letters referenced verbal job offers that had previously been made, there was no reference to the dates of these verbal offers. These cases demonstrate a lack of compliance with best professional practices and potential violations of law. **The PRC recommends that HR prepare and preserve written, dated, and consistently formatted conditional job offers made before the expiration of the certified eligibility lists for all appointments.**

One Candidate Was Not Certified for Original Appointment

Definition of an "Original Appointment": Cuyahoga County Code (Code) Chapter 303 includes a description of the County's civil service plan. Sections 9.01 and 9.02 of the County Charter authorize the PRC to create rules and policies related to administering

the County's civil service plan. The PRC Administrative Rules (Rules) set forth the policies and procedures governing classification plan administration.

Code section 303.05(a) generally defines an "Original Appointment" as the appointing authority's selection of a candidate from an eligibility list the PRC establishes to fill a vacancy in the classified service. PRC Administrative Rule 11.01 further defines an Original Appointment and requires the PRC to certify an eligibility list to an appointing authority; it is from a certified eligibility list that an appointing authority may select appointees. Thus, to comply with these civil service laws and rules, a person appointed to a classified position must have been selected from an eligibility list that the PRC certified to the appointing authority.

This audit revealed that the Sheriff's Department appointed one candidate from an eligibility list that was not certified for the candidate's appointment. (See Addendum A, Appointments Report Item # 613.)

PRC recommendation: The Ohio Constitution, Article XV, section 10, requires appointments and promotions in the civil service of the County to be made according to merit and fitness, to be ascertained, as far as practicable, by competitive examinations. The County appointed this individual without the process all candidates are entitled to under law.

The PRC recommends that HR develop, implement, and utilize processes to ensure that all County appointments are made in accordance with the law.

To be technically compliant with the relevant legal requirements, this appointment should be rescinded, and the County should follow established civil service regulations to make this appointment.

The PRC has also confirmed that there were various errors listed on the Personnel Agendas, which are as follows:

Incomplete Data

Four appointees listed on the County's Personnel Agendas were rehired from a disability separation. HR provided the dates of the disability separation for three of the entries, Appointments Report Items 250, 454, and 826. The PRC was unable to independently verify the dates of separation. These entries are not violations of civil service law per se but are incomplete and should include the date of the disability separation. These are found at Appointments Report Item ## 250, 300, 454, and 826. These four entries were included in the 29 unresolved issues discussed at the February 1, 2023, PRC meeting as missing eligibility lists.

PRC Recommendation: Data integrity is key to having an efficient, effective HRIS system. The PRC has learned that the human resources modules of INFOR have a limited

number of fields for data, and do not capture all data necessary to create a complete record of appointments. **The PRC recommends that HR maintain data necessary to verify that appointments are compliant with civil service rules and administrative procedures outside of INFOR when necessary.**

Data Entry Issues

In conducting the audit, the PRC noted several instances where duplicate entries were made for one action type. The incorrect duplicate entries appear at Appointments Report Item ## 27, 327, 358, 362, and 695. In another instance, one employee was listed as being promoted, but the employee was a long-term employee who did not have a break in service and was not promoted. This entry is found at Appointments Report Item # 647. Additionally, two inaccurate entries resulted from a PRC error. The PRC incorrectly invited an applicant who did not meet the minimum requirements to test for the Social Service Worker 3 position. After the applicant was hired, HR identified the error. It turned out that the applicant was qualified for Social Service Worker 1. All parties agreed that the applicant would be voluntarily demoted rather than terminated. To capture the proper action types, four data entries were made, two of which are inaccurate. These inaccurate data entries are shown at Appointments Report Item ## 309 and 440.

PRC Recommendation: Data integrity is key to having an efficient, effective HRIS system. To note, the PRC's classification and compensation team also occasionally notifies HR of errors identified in the County's employee records.

The PRC recommends that the County implement quality assurance procedures to ensure the accuracy of all data entered into the system that houses County employee data. Also, the PRC recommends that employees responsible for data entry in the system are trained sufficiently on issues such as classified status, appointing authority, and other items unique to public service, so they can develop an understanding of the importance of this data in the County's HR recordkeeping and operations. The PRC also recommends that the Talent Acquisition Team be trained adequately to understand the importance of these concepts in their work processes.

ADDENDUM A

Highlight Color	Explanation
Purple highlight	Start of New Personnel Agenda
Yellow highlight	Data entry error.
Orange highlight	PRC was unable to verify certain data
Red highlight	Non-Compliant
